WHAT IS IT?

The Discovery Lab Experience is perfect for successful, busy people like you who are searching for higher levels of success, happiness and fulfillment in life. An intimate one-to-one exploration of your CORE MOTIVE and your natural talents The Discovery Lab Experience is the first step forward to understanding THE SELF.

Understanding THE SELF is the secret to healthy productive relationships that work towards improving life both at home and at work, and to staying out of the life and leadership graveyard. Acquiring this knowledge comes through identifying your strengths and your limitations — knowing WHY you do what you do.

Based on Dr. Taylor Hartman's breakthrough work, the personality science offered in KRE-AT's programs goes far deeper than just simply looking at behaviours. It reveals the WHY behind them, giving you a profound advantage in both personal and business relationships.
